

## DESCRIPTION

COLOPATE+ is a pigment concentrate intended for tinting glycerophthalic paints.

## FIELD OF USE

Easy tinting of glycerophthalic paints and varnishes for the building industry.

## TECHNICAL CHARACTERISTICS

- Colors: Oxide red, bright red, oxide yellow, dark yellow, lemon yellow, dark green, light green, sky blue, black, Orange, Violet, Bordeaux.
- Density: 1 to 1.62 +/- 0.05 at 25 ° C (depending on the color).
- Viscosity: 100 to 110 KU +/- 5 to 25 ° C with a Krebs Viscometer (depending on the color).

## APPLICATION DETAILS OF USAGE

- \* Dilution: White Spirit (D66).
- \* Incompatibility: Do not exceed 10% (weight by weight) of addition to glycerophthalic paints.

## STORAGE

The product can be stored for up to 1 year under good storage conditions away from sunlight and frost in its original closed packaging. However, it is recommended to shake the product before use.

## PACKAGING

100 ml.

## HEALTH & SAFETY

Health and safety information and precautions for use are detailed in the safety data sheet N°74.

Edition :Mai 2026 by Colorado 05/26 (DC28G).

N.B : The purpose of this technical data sheet is to provide information on the properties of our product. The information contained therein is based on our current knowledge of tests carried out with a constant concern for objectivity according to the conditions of use in accordance with standards or DTU in force; However, the information cannot replace an appropriate description and the state of the funds to be painted. This descriptive technical sheet cancels and replaces any sheet relating to the same product. The above technical data does not imply acceptance of the guarantees. Close the pot tightly after use. Help preserve the environment by not disposing of waste in the drains or household waste. Please return your empty jar to a recycling center. For your unused product, please contact your local authorities for information on disposal and collection.
